

TESTED

OVER 1,000,000 MILES & NO REPLACEMENT

Over the course of the year, not a single windshield needed to be replaced on any of the trucks equipped with GLASHIELD™. This is in stark contrast to the company's historical 50% replacement rate. The durability of the GLASHIELD™ film was evident, as it successfully protected the windshields from chips and cracks that would have typically required replacements.

WARRANTY

GLASHIELD™ comes with a 3/36 limited warranty, with an optional 5-year/Unlimited mile warranty available. This warranty coverage provides added peace of mind, ensuring that the product will continue to perform as expected over the long term.

SHIELDS AGAINST

Road Debris

Reduces impact damage from debris including rocks and sand.

Scratches

Abrasian resistant to protect against fine scratches.

Dirt & Dust

Our low maintenance film is resistant against grime and all storage conditions.

All-Weather

Increased optical clarity in all weather.

Sun/UV

Heat and UV resistant.

Water

Hydrophobic surface Increase rain performance.

GLASHIELD

SHIELDING YOUR JOURNEY, ONE MILE AT A TIME

NOT A COATING.

OUR SOLUTION ▼

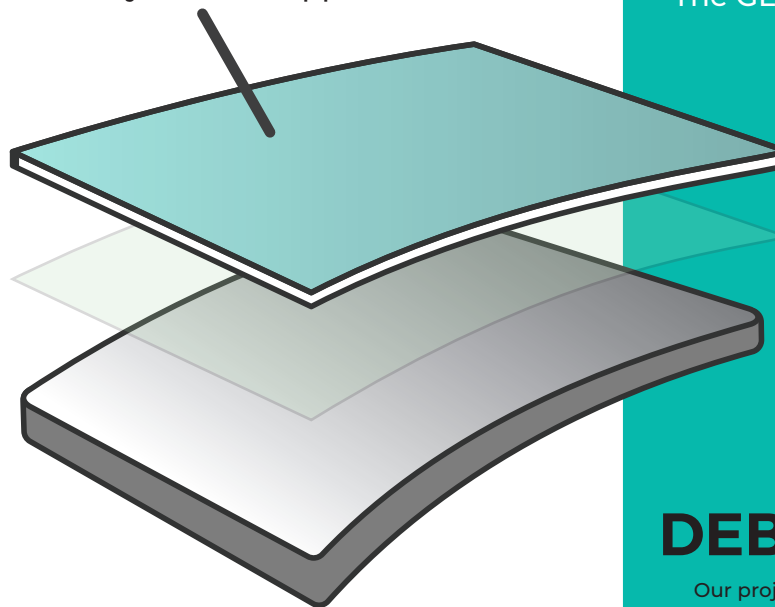

GLASHIELD™ developed a patented windshield film designed to provide superior protection against the elements. Unlike traditional "wipe-on" treatments, which tend to fade over time and suffer from durability issues, GLASHIELD™'s film is a one-piece solution that bonds seamlessly to the windshield. The film is invisible, causes zero glare, repels water, bugs, rain, and ice, and allows wiper blades to glide effortlessly over the surface.

GLASHIELD™ is an ideal solution for the automotive market, trucking, rental car fleets, and construction equipment. Rental car companies, in particular, stand to benefit significantly, as they pay millions annually in windshield claims. With GLASHIELD™ in place, these costs can be dramatically reduced.

GLASHIELD™ can be installed in 10 minutes and has a 5 year UNLIMITED MILE WARRANTY.

THE PRODUCT

Virtually Invisible Application

The GLASHIELD™ Windshield Film

Versatile application and works with all types of windshields

Adhesion Layer

Crystal clear application with no residue

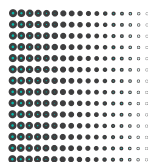

DEBRIS PROTECTION

Our projectile test shooting a BB at 350 feet per second.

NO PROTECTION

W/ GLASHIELD™

Fade Resistance

UL TESTED. Will not discolor, fade, or have diminished debris protection.

All-Season Performance

Extreme temperature swings, rain, or snow, GLASHIELD™ performs in all conditions and will not deform or lose adhesion due to temperature cycles.

Easy Care

Low maintenance care and durability.
